Professional Experience

ManufApp – Frontend Intern → Full Stack Engineer

Oct 2025 – Present

- Built the **chat infrastructure for an AI agent** supporting cron job creation, CSV-based order creation, user onboarding, and machine downtime logging.
- Owned the end-to-end development of a **ticket management system** replacing Excel-based support workflows, with attachments, prioritization, admin workflows, and **WebSocket chat**.
- Built a **financial document system** supporting 12 customizable document types and bulk generation/download of **100+ documents in ~18 seconds** using Web Workers.
- Built **AI-powered localization infrastructure** supporting 5 languages, reducing translation turnaround from **days to minutes** and accelerating expansion into Vietnam.
- Reduced **production build time from 17 minutes to 3 minutes** by migrating to Turbopack, converting CommonJS to ESM, enabling tree-shaking, and introducing lazy loading.

Projects

API Watch **LIVE**

— Jan 2026

Express.js, Server Sent Events (SSE), HTTP Streaming

- Designed an HTTP-based **Server-Sent Events system** for **real-time API log delivery**, leveraging native **EventSource** with auto-reconnection compatibility.
- Implemented **persistent event streams** with proper headers (**text/event-stream, keep-alive**) and efficient **multi-client broadcasting**.
- Developed a custom useSSE React hook managing **connection lifecycle**, auto-reconnect, rolling log buffers, and real-time UI updates.

PersonaAI **LIVE**

— Sep 2025

OpenAI SDK, Gemini API, Prompt eng., Next.js

- Developed a real-time AI chat system where personas **mimic the tone and style** of creators and fictional characters.
- Designed a production-ready UI/UX with **streaming replies**, multilingual support and **rich markdown responses**.
